Tech Specs - sonnen eco Gen 3.1

The sonnen eco is an intelligent energy storage solution that seamlessly integrates with leading smart home automation systems and controllable breakers to power your home with clean energy – managing your energy usage throughout the day, providing smart configurable backup power during grid outages and powering smart homes with solar energy, day and night.

### General Specification

**Grid integration** | AC coupled  
**Transfer switch** | Automatic, integrated  
**Usable capacity** | 2.25 kWh per battery module, up to 8 modules  
** Listed and recognized components** | System certified – UL9540; Battery modules – UL1973; Inverter – UL1741; Transfer switch – UL1008; AC Breaker – UL489  
**Warranty** | 10 year or 10,000 cycle system warranty – includes inverter, battery modules, cabinet and components  
**Roundtrip efficiency** | Maximum round-trip efficiency of 81.6%  
**Temperature range** | 41 °F - 113 °F  
**Ventilation/Noise** | Forced Air / <70DBA  
**Comm. ports** | Ethernet  
**Communication protocols / Control** | SunSpec Alliance / API available to select partners  
**Enclosure rating** | NEMA 12  
**EMC / EMI protection** | FCC Part 15B  
**Device Protection** | Short-circuit, Overload, Over-heating  
**Over-current Protection** | 50 A  
**Total harmonic distortion** | <5% L1-L2 & <2% L-N  

### Battery Specification

**DC battery input voltage** | 44.5–53.5 VDC  
**Max charge current** | 50 A per module  
**Cell discharge** | 2.5 kWh with 90% DoD  
**Overcharge Protection** | MOSFET & Fuse protection  

### AC specification

**AC grid voltage** | 120/240 VAC (Split phase)  
**Nominal AC input current (grid-tied operation)** |  
| eco 5 | 12 amps  
| eco 7.5 | 15 amps  
| eco 10-20 | 29 amps  
**Nominal frequency** | 60 Hz  
**Adjustable frequency range** | +/- 0.7 Hz from nominal  
**Metering capability** | Power meter for load and PV production (not revenue grade)  
**Tare losses (W)** | 60 watts  
**Transient protection** | IEEE C62.41 Class B  

### Measurements

For Puerto Rico, the sonnen eco comes standard with the front screen.

---

We reserve the right to make technical changes. The values, outputs, other technical data, images, and diagrams in this prospectus and in data sheets, advertisements, and other promotional documents are approximate guidelines in all cases where they have not been identified as binding.

1. The ecoline Ndure battery modules are 2.5kWh in total capacity and represent 2kWh of usable capacity per module.
2. Please observe our applicable warranty conditions.
3. Based on full system AC/AC RTE “round-trip efficiency” at ambient temperature of 25°C (77°F), beginning of life in off-grid mode and at 50% symmetric charge/discharge rate. Testing conducted by sonnen Inc. R&D. Backup data available on request.
